**Knowledge Experience Support Advice**

At the forefront of innovative scissor lift technology and design since 1964

## Better On Every Level

For every kind of application and every kind of industry Edmolift have the scissor lift solution for you and your workplace. Its not just about beautifully designed and robustly built products, competitive prices, five star service and an extensive product range - at Edmolift we provide a great deal more.

**CONFIDENCE** our team are experts, their experience, product and application knowledge and customer support are the very best in the industry.

**VALUE** better performance, greater reliability, reduced service costs, best for safety - overall the most competitively price lift tables available.

**EXPERIENCE** at Edmolift we have been surveying applications and specifying scissor lift table since 1964. Our technical team have decades of direct, front line experience.

**SUPPORT** from the initial enquiry and specifying process through to installation, serving and beyond our support team are available on demand to assist with all your requirements.

**WARRANTY** all lifts are supplied with a fully comprehensive three year parts and labour warranty that is underpinned by our national network of service engineers and huge UK spare parts stock holding.

**PARTNERSHIP** we build long term, lasting relationships with our clients. Our aim is to be your supplier of choice for everything we do, to exceed your expectations in every respect.

**TRUST** Edmolift is an honourable organisation, approachable and ethical - no hollow promises. We operate a strict health and safety policy and work within strict environmental guidelines. We are also nice people to do business with!

- Edmolift manufacture approximately 10,000 scissor lift tables each year and export worldwide
- Edmolift are members of ALEM (Association of Loading & Elevating Equipment Manufacturers). ALEM is a member of the British Materials Handling Federation
- Edmolift's key Sales Engineers have a combined 65 years' experience working with Scissor Lift Tables - the industry's No.1 experts
- 100% of clients surveyed regard Edmolift products and service as good, very good or excellent. Our electrical system is unique being micro-processor controlled -considerably more reliable than units containing relays
- Our hydraulic systems are air tested for leakage
- Edmolift cylinders and powder coat paint finish are designed for use on tail lifts on articulated vehicles - this very exposed environment is one of the harshest
- The average operational life expectancy of an Edmolift lift table is over 15 years. A good service and maintenance regime ensures trouble free operation and compliance with statutory regulations
- Edmolift lift tables have the lowest cost of ownership over five years
- The average spend on spares and consumables over a five year period is just £20.00. 85% of our business is repeat business - our clients keep coming back!
- Our in-house lift table stock is amongst the largest available – we could despatch £350,000 of lifts within 24 hours
- All orders are assigned a Project Manager who handles the job from start to finish
- All custom design work is carried out in-house and our clients are welcome to visit throughout every stage of the design and build process
- Product demonstrations are available on request

# LOADING BAY PLATFORM LIFTS

Telescopic mast with 220/240v motor

Interlocked street level gate

Basement to street level access solutions. Adaptable, safe, reliable and smart: these are some of the words that have been used to describe our compact lightwell lifts. A unique concept that puts Edmolift at the forefront of lightwell lift design. The lift is beautifully engineered and uses a sleek aluminium profiled mast to effortlessly raise the load to the required height at which point an interlocked gate or trap door is released. The lift is operated from a simple push button controller and powered from a regular domestic 240v, 13 amp power supply. Raised heights of up to 4000mm can be reached in seconds. The lifting capacity is an impressive 200Kg. Gates and barriers are produced to suit individual load types and locations.

Low profile loading bay lift used for loading catering trolleys for airlines

# ERGONOMIC PLATFORM LIFTS

IMPROVE ERGONOMICS AND INCREASE PRODUCTIVITY WITH AN EDMOLIFT PLATFORM LIFT. LIFT TABLES, LIFT TROLLEYS, TILT TABLES, TURNTABLES AND WORK POSITIONERS MAKE UP ONE OF THE LARGEST RANGES OF ERGONOMIC PLATFORM LIFTS AVAILABLE

## At A Glance

Max. load 200Kg-3000kg

Lifts stroke to 2000mm

Very compact size

Bespoke platform sizes

Custom load restraints

Static or mobile

Powered, manual or battery

According to the very latest HSE figures, 4.9 million working days are lost each year as a direct result of back pain caused by work related injuries. On average each person affected takes 18.7 days off work each year due to these injuries.

The installation of a lift table greatly improves manual handling in virtually all applications and therefore reduces absenteeism and increases productivity.

Loads can be presented at a height that eliminates bad posture; no more bending, stretching, twisting or awkward lifting.

Lift tables, tilt tables, lift trolleys and work positioners are just some of the ergonomic platform lift types that we supply.

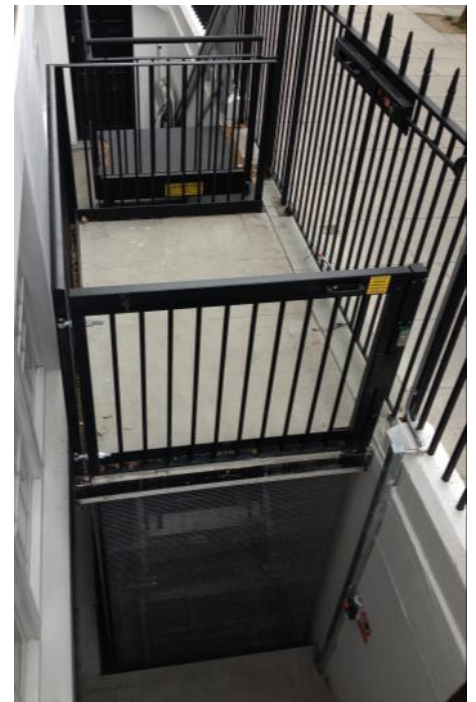

Ergonomic low profile pallet lift in warehouse

# FULL SIZE LIGHTWELL PLATFORM LIFTS

ACCESS VALUABLE LIGHTWELL BASEMENT PROPERTY EASILY AND SAFELY WITH A LIGHTWELL PLATFORM LIFT. DISCREET AND HIGHLY ADAPTABLE. SUITABLE FOR COMMERCIAL AND RESIDENTIAL USE

Domestic and commercial lightwells are fitted with Edmolift lifting solutions across the country to provide easy load access to this valuable living and working space.

In basement homes, offices, kitchens and stores it is increasingly popular to fit a lightwell lift to elevate wheelie bins, black sacks, bikes and scooters, prams and buggies as well as large bulky items such as white goods, gas bottles, catering and

kitchen supplies, furniture and office automation products.

Lightwell lifts are available in various sizes to suit virtually every type and size of lightwell.

Most lifts are installed in 2-3 days.

# FLOOR TO FLOOR PLATFORM LIFTS

Fully compliant

Robust, durable and reliable

At Edmolift we offer various Goods Lift packages to suit all requirements. From a complete stand alone lift with full fabricated shaft to a lift only solution installed within an existing shaft or shaft supplied by the clients' own builders. All are fully compliant and includes interlocked gates and barriers, control stations at all levels, guides if required and a platform cage. Factories, shops, warehouses, universities, hospitals and offices are

all successfully using Edmolift floor to floor goods lifts. Pallets, roll cages, trolleys and boxed loads can be handled with ease between floors, quietly and efficiently.

Scissor lift platforms are an excellent, low cost alternative to conventional goods lifts which can be expensive and difficult to install in many locations.

Automated positioning in aluminium extrusion factory
