

SSGL600

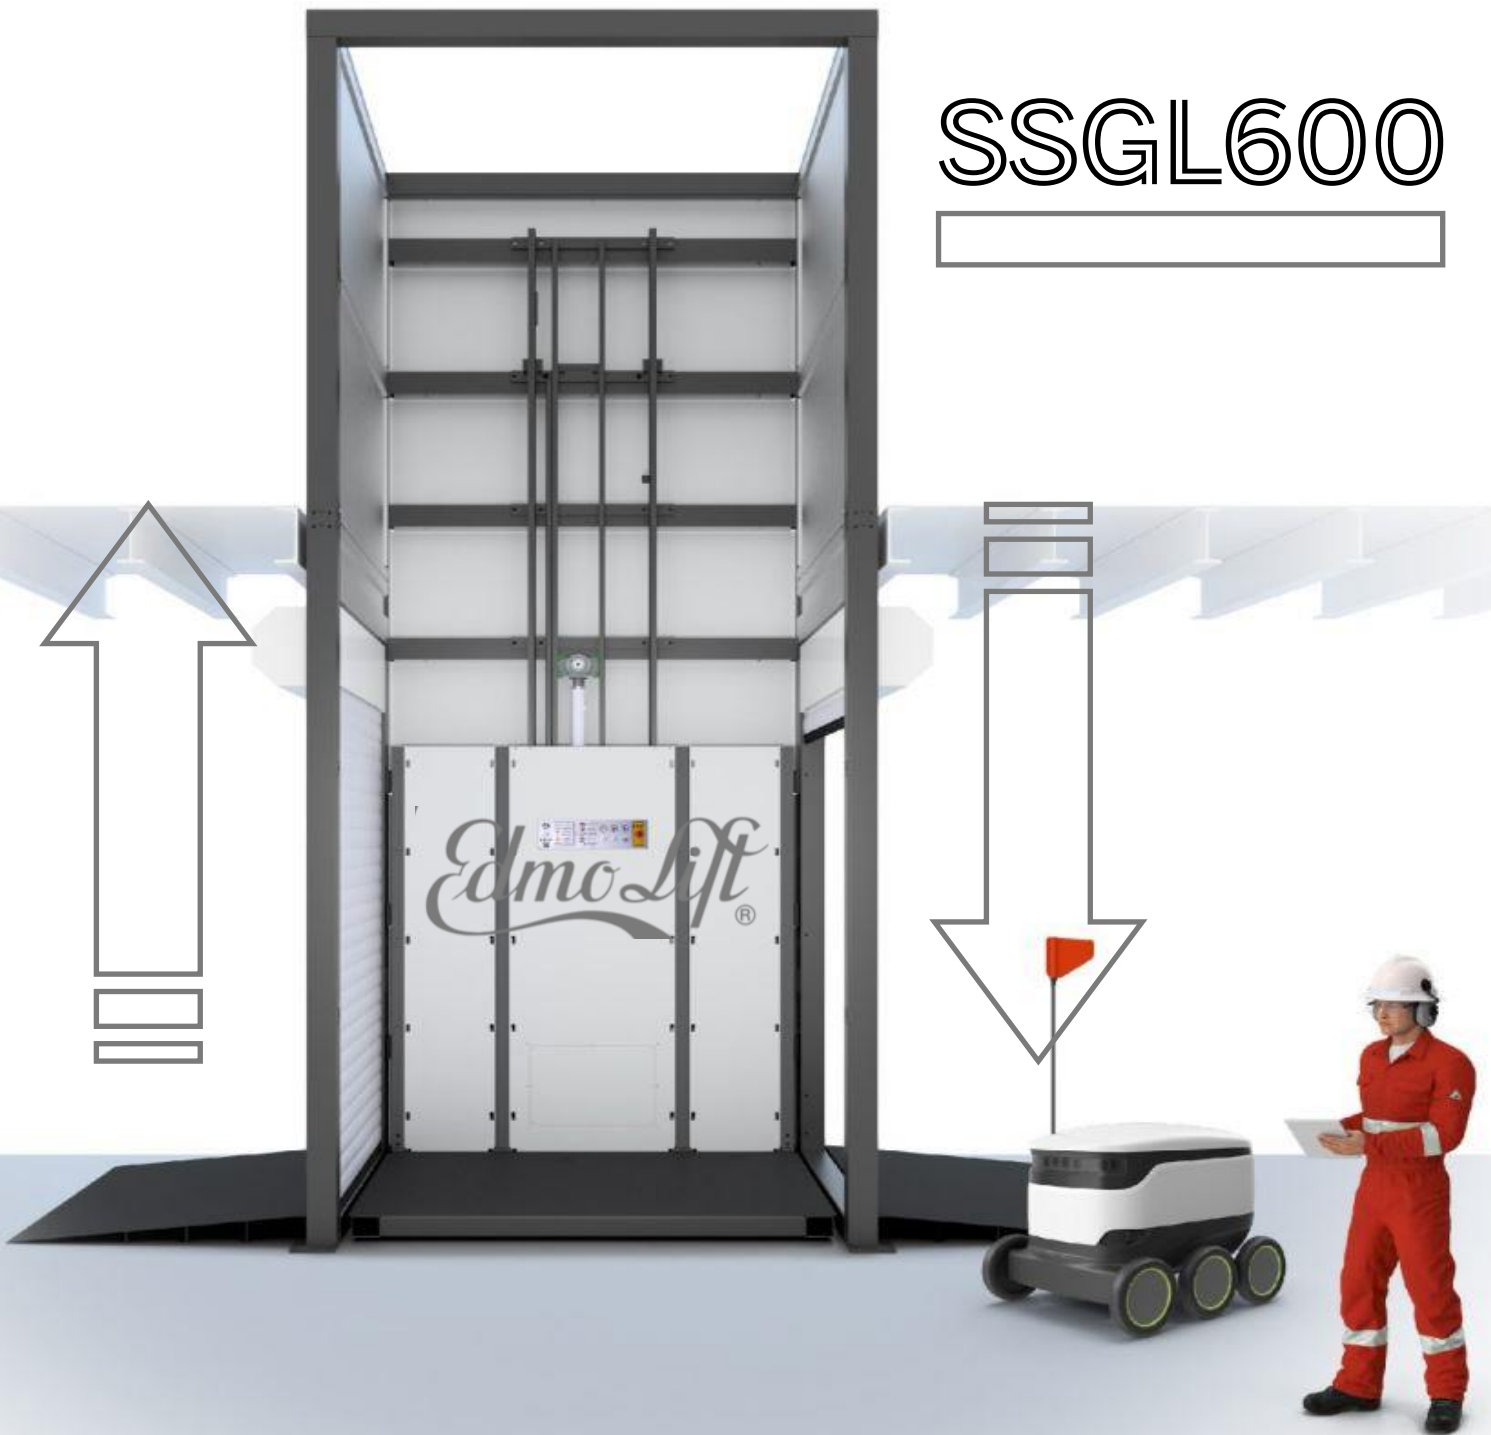

MEZZANINE
FLOOR LIFT

THE SELF SUPPORTING GOODS LIFT

SSGL600

Self Supporting Structure - The SSGL600 with its innovative self supporting structure can be installed in virtually all types of location without the need for a pit or being anchored at the landings. Structural checks are not required.

Modular - The modular structure is optimised for pallets, roll cages, trolleys and for mezzanine floors with an adjustable stroke to 7M.

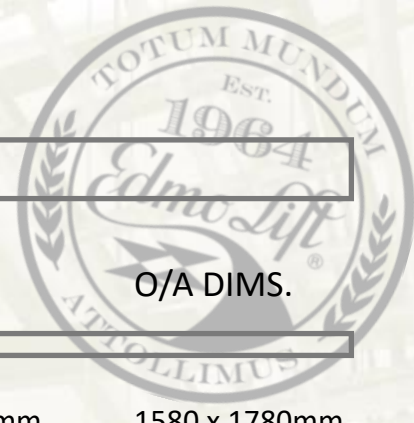

Fast Installation - A safe and effective solution to reach mezzanine floors. Installed quickly with no building works.

One Touch - One touch, press and release controls are included. Raises at the touch of a button in total safety.

4.0 Smart Factory Ready - Technology born for integration with automated smart industry 4.0 systems.

Standardisation - For reduced lead times and fast installations. Available with two platform sizes 1300mm x 1700mm and 1100mm x 1480mm
