Better On Every Level.....

Expert Level Knowledge, Experience, Support, Advice. The UK's largest supplier of scissor lift tables and associated materials handling equipment.

EDMOLIFT SELECT by Edmolift, at the forefront of innovative materials handling, lifting equipment design and manufacturing for over 55 years. Scissor lift tables, loading bay lifts, pallet handling, manual handling solutions, ergonomic lifts, micro lifters and electric tugs. Today we are Europe's largest producer with manufacturing sites in Harnosand, Sweden and Cambridge, UK. Our standard range is the largest available anywhere in the world with over 500 different models.

We also design and manufacture bespoke products for special applications. Our design team are based at our site near Cambridge where they work in close liaison with clients to ensure we supply exactly the right tailor made product for your application. Edmolift provide products for all types of industry. We can build using special materials such as stainless steel for the food and pharmaceutical industries, packing and processing.

Edmolift has over 150,000 products in use worldwide and almost 15,000 in use in the UK.

Did you know we also design and produced loading bay lifts, disabled access lifts, goods lifts and home lifts. Contact us for details 01440 730640.

#### Product Group

- Single Scissor Mechanism Lift Tables
- 500Kg - 10,000Kg Capacity EDL
- Max. 3250mm Raised Height Available
- From 160mm Lowered Height
- Huge Choice of Sizes and Configurations
- 3ph or 1ph Power

#### Timber Mill Pictured Application

Timber is cut to size at a continuously sustained ergonomic height to suit the individual operator. As the stack of layers increases the lift platform is lowered to avoid bending and stretching.

#### Product Group

- Low Profile Scissor Mechanism Lift Tables
- 500Kg - 1000Kg Capacity EDL
- Max. 900mm Raised Height Available
- From 80mm Lowered Height
- Various Platform Sizes and Configurations
- 3ph or 1ph Power

*Edmo Lift* select

#### Low Profile, Low Rise Goods Lift

This highly developed product is used extensively by the worlds largest fast-food chain, it's ideal for transporting roll-cages and other wheeled loads between two levels with a travel distance to 900mm. It is floor standing with a lowered height of just 80mm and is equipped with a light-weight aluminium ramp that also retains the load when raised. The same configuration can be used for through car and adjacent entry (left or right) applications as the barrier system can be rotated. The upper level is protected using a gas strut assisted drop down barrier arm with stop/go switch and integrated push station controller.

#### Product Group

- Low Profile Scissor Mechanism Lift Tables
- 500Kg - 2000Kg Capacity EDL
- Max. 1050mm Raised Height Available
- From 80mm Lowered Height
- Various Platform Sizes and Configurations
- 3ph or 1ph Power

#### Bed Lifts for Ergonomic Positioning

It is essential for hospital beds to be regularly inspected, cleaned and maintained. To do this ergonomically and efficiently our healthcare clients use TCL1000 scissor lift platforms with shallow load ramps. This provides a secure surface for all works required.

TL2000 scissor lifts with turntable and forklift chassis, 2000Kg capacity. - Ford Motor Company

#### Product Group

- Scissor Lift Trolleys
- 200Kg - 1000Kg Capacity EDL
- Max. 1930mm Raised Height
- From 320mm Lowered Height
- Various Platform Sizes and Configurations
- Foot Pump or Rechargeable Battery Pack

#### Lift Trolley Range

Edmolift offer a full range of high quality scissor lift trolleys with a choice of manual foot pump and rechargeable battery power packs. Single and double scissor mechanisms provide lift heights for most applications.

#### Product Group

- Single Scissor Mechanism Lift Tables
- 500Kg - 10,000Kg Capacity EDL
- Max. 3250mm Raised Height Available
- From 160mm Lowered Height
- Huge Choice of Sizes and Configurations
- 3ph or 1ph Power

#### Insulated Panel Production

We work with both manually operated and automated system providers to stack sheet materials (metals, timber, plastics etc) for end of line applications.

## Product Group

- Low profile Mechanism Lift Tables
- 500Kg - 2000Kg Capacity EDL
- Max. 1050mm Raised Height Available
- From 80mm Lowered Height
- Huge Choice of Sizes and Configurations Including U and E shape platforms
- 3ph or 1ph Power

## Load with a Hand Pallet Truck

No need for a forklift or a pit, a low profile lift with either a flat platform and ramp or a U shape platform suited to free entry pallets can be loaded with a hand pallet truck. Keep your load at an ergonomic level.

"U" shape versions also available. No ramp required!

#### Product Group

- Single Scissor Mechanism Lift Tables
- 500Kg - 10,000Kg Capacity EDL
- Max. 3250mm Raised Height Available
- From 160mm Lowered Height
- Huge Choice of Sizes and Configurations
- 3ph or 1ph Power

You should never have to bend and stretch to reach your load. A scissor lift table keeps your load at a comfortable, ergonomic level. Its cost effective, efficient and incredibly reliable

#### Product

- Bespoke
- 25000Kg Capacity EDL
- 1500mm Raised Height
- 800mm Lowered Height
- 4500mm x 1500mm Platform Size

#### 25000Kg capacity

Lifts without limits! This 25,000Kg capacity lift ergonomically positions construction equipment for assembly and inspection.

#### Product Group

- Single Scissor Mechanism Lift Tables
- 500Kg - 10,000Kg Capacity EDL
- Max. 3250mm Raised Height Available
- From 160mm Lowered Height
- Huge Choice of Sizes and Configurations
- 3ph or 1ph Power

#### Efficient Ergonomics

Boxes can be stacked at a comfortable level, no bending or stretching. Once the pallet is fully laden it is rolled onto the next stage of packing further down the line.

## Product Group

- Low profile Mechanism Lift Tables
- 500Kg - 2000Kg Capacity EDL
- Max. 1050mm Raised Height Available

Edmo Lift® air

#### Product Brief

- 4.2M working height
- Battery powered elevation
- Compact
- Turns on the spot!

#### AIR by Edmolift

Lightweight, compact and manoeuvrable. Easy to use, safe and stable. Your ideal partner for all overhead work in internal environments including clean manufacturing, data-centres, venues, offices, hospitals, hotels etc

## Full Feature Range of Battery Powered Work Positioners/Micro-Lifters

Edmolift have been at the forefront of Work Positioner design and technology for over 25 years and have supplied 1000s of lifters to all types of industries including pharmaceutical, healthcare, engineering, automotive, food production, data centres, aerospace, materials handling and many more. This vast experience is reflected in every aspect of our design – a strong aluminium chassis and lightweight aluminium mast provide the perfect balance between strength and weight which results in a super stable, safe and manoeuvrable lifter. Our belt drive lift mechanism is quiet, dual speed and robust. Work positioning is extremely accurate. The separate battery charger takes just four hours to complete a charge, has an auto-cut-off feature and will provide approximately 100 complete lift cycles\*. Edmolift premium WPs are ideal for most confined work spaces with four swivel wheels as standard and the rear wheels fitted with total stop brakes.

- Max. load 70-250Kg
- Lift travel in excess of 2M
- Very compact size
- Belt drive
- Quiet operation
- Long battery life
- Proven reliability, 1000s of lifters supplied over 30 years!

[www.edmolift.co.uk](http://www.edmolift.co.uk)
